Famed Architect Piero Lissoni Brings Exquisite Design to Miami Beach's Only Lake

After great success with the Ritz Carlton Singer Island Lionheart Capital is bringing us another Ritz project this one in their home town of Miami. Lionheart is leaving no shell unturned and their selection of Piero Lissoni is interesting. An Italian architect known for his minimalistic architecture and contemporary furniture design he will certainly bring a bit of panache to South Florida. This is his first architectural effort in the United States and he is teaming with the very talented people at Miami's ADD, Inc for what will be an amazing development. And if you want a Green home then the Ritz Carlton Miami Beach is for you as it will be fully LEED certified.

A total of on 126 residences ranging in size from 1,700 square feet all the way up to 10,000+ square feet the uber-luxury project will have residences available from

\$2 million to about \$25 million for the penthouse units. If you would like to register for more information please feel free to contact me and I will be happy to provide you the latest details as soon as they become available.

Miami is no doubt ready for a project of this stature and the Ritz Carlton Miami Beach will have it all. Surprise Lake is the only lake on Miami Beach and this will probably be the last project of this scope in this part of town. With a list of world class amenities from a world class marina to a roof top pool with over 1/2 acre of landscaped space it just doesn't get better. My favorite amenity is the dog grooming room. How sweet is dat?

The demand for Miami property is once again at very high levels and if you may be interested in a world class home at Ritz Carlton Miami Beach please feel free to contact me at your convenience.

Fins up.....
