Lionheart Capital recently celebrated the construction commencement of the Ritz-Carlton Residences, Miami Beach, located at the former Miami Heart Institute site. This new luxury residential development is located in the heart of Miami Beach amidst a quiet, residential neighborhood where lake, ocean, and waterway collide. The ceremony took place on the seventh floor, where guests had a 360° view of Miami Beach's gorgeous skyline, a view that the soon-to-be owners of these residences will have. The space will house 111 condominiums and 15 single-family villas. Miami Beach Commissioners **Deede Weithorn** and **Joy Malakoff**, Lionheart Capital CEO and Partner **Ophir Sternberg**, and Lionheart Capital Partners **Allison Greenfield** and **David Metalonis** are only a few of the notable guests that afternoon.

Piero Lissoni's modern and cutting edge architectural vision will make these residences both unique, and a true dream space to create memories in.
